

Identifying Priority Issues

GROUP 2

PRIORITY ISSUES

1. Gender mainstreaming and focus on women-led organizations and women's CBO's
 2. Communication and learning between donors and local actors, and between international, national and local NGOs
 - Feedback and project design, coordination
 - Defining needs and strategies to address these
 3. Focus on the importance of core funding – both from donors and from own income-generating/fundraising activities.

Donor funding should be:

 - Flexible and multi-year, not linked to project funding
 - Not too onerous to receive
 - Institutional (not individual)
- Use standardized global quality and accountability benchmarks
 - Develop common understanding of localization and focus on shared Principles of Localization
